PROFILE

Master's student in Software Engineering, combining solid development expertise with strong agile project management skills. Passionate about workflow optimization, with hands-on experience in Scrum methodology and advanced use of GitHub Projects. Currently seeking a 4- to 5-month internship starting April 2026, where technical skills and organizational abilities will help ensure successful delivery of projects

PROFESSIONAL EXPERIENCE

Web Developer, FBD Group

Jul 2024 - Dec 2024

- Enhanced the customer journey by streamlining user interactions and integrating advanced analytics.
- Developed robust back-end features using PHP with the Laravel framework, and created dynamic front-end interfaces utilizing Vue.js and Inertia.js.
- Implemented Docker and GitLab CI/CD pipelines to facilitate continuous integration and deployment, ensuring smoother and more reliable software updates.

PROJETS

Relay (Clone de Zapier/IFTT)

- Developed a microservices architecture connecting third-party APIs (Discord, GitHub, Google, etc.).
 - Implemented OAuth2 authentication systems and automated workflow management (Triggers/Actions).
- Stack : **Node.js, Express, Nuxt, PostgreSQL, Docker, TS**

Jeb Incubator

- Matchmaking platform between startups and investors.
 - Developed the admin dashboard and project landing pages.
- Stack : **NextJS, MariaDB, React, TS**

Raytracer

- Developed a 3D rendering engine using ray tracing to simulate light and generate realistic images.
 - Implemented algorithms for shadows, reflections and refractions, with an object-oriented architecture using interfaces.
- Stack : **C++**

HACKATHON

Vueling x Mobile World Capital

Mars 2025

Developed an embedded AI translation solution for cabin crew and passengers, with a final presentation in real flight conditions between Paris and Barcelona.

Openpoint - Green AI

Avril 2025

Optimized AI models to reduce environmental impact.

Orange Business - Brand Redesign

Janvier 2025

Redefined Orange Business's brand image through a multidisciplinary project combining technology, design and communication.
